

IPC CORPORATION LTD

PRESS RELEASE

**IPC CORPORATION'S SUBSIDIARY THINSOFT LAUNCHED NEW
WINCONNECT SERVER VS**

*Product add Microsoft Vista compatibility to the Company's award winning line
up of premier thin-computing software solution*

Singapore, 26 March, 2007 — — THINSOFT (HOLDINGS) INC (the "Company"; HK GEM Stock Code: 8096), a recognized leader in Thin Computing solutions today announced that it has launched a new product WinConnect Server VS to support Microsoft new operating system Vista.

Similar to WinConnect Server XP, ThinSoft's new WinConnect Server VS - enables a Windows Vista (Business or Ultimate Edition) computer or Host PC to allow multiple Remote Desktop Protocol enabled Thin Client devices to connect and run Windows applications simultaneously yet independently. The Thin Client devices include Terminals, Internet/Information Appliances, Tablet PCs and PDAs. The devices are connected to the Host PC over wired or wireless TCP/IP connections such as Local Area Network (LAN), Wide Area Network (WAN), Dial-up (Internet), Digital Subscriber Line (DSL, ADSL), Integrated Services Digital Network (ISDN), or Virtual Private Network (VPN) connection.

The Company's products are widely sold in Asia-Pacific, Europe, Africa, The Middle East, and North and South America. The applications are diverse from education, retail, medical, legal, accounting, remote applications, home entertainment, office applications, to many other application-specific environments.

Mr. Bernard Ngiam, Chairman of the Company, said, "The new product is a clear demonstration of our technical prowess in the Thin Computing space and our continuous commitment to our existing worldwide distribution network and customers base."

About ThinSoft (Holdings) Inc:

ThinSoft (Holdings) Inc (the “Company”) is a leading global developer and distributor of Thin Computing Solutions (TCS) that reduce the Total Cost of Ownership (TCO) of IT operations. The Group has three flagship software product series, BeTwin, WinConnect and WinConnect Server that support applications running on the world's two most dominant operating systems Windows and Linux, as well as Sun Solaris.

ThinSoft (Holdings) Inc is listed on the Growth Enterprise Market (GEM) of the Stock Exchange of Hong Kong Limited. Its stock code on GEM is 8096. The Company’s subsidiaries are ThinSoft (USA) Inc in New York, USA, and ThinSoft Pte Ltd in Singapore.
